Note The North Boundary of the foregoing Town was not run for want of Provision at the time I was here. I am quite certain that the South Boundary should be run over again. as, in my opinion, there must be an Error in the Measurement of the Mer. W. Boundary of T. 35. (See the bar. of the N. & S. Boundary T. 35.) and before I would run the North by T. 36. I would re-measure the Mer. for the 6. miles at least. W. by 35.
